ENGAGE final outputs...

ENGAGE project recognises the need for a new approach to the provision of migrant integration support.

This is why ENGAGE is more focused on the integration of migrants through education and establishment of a new profile of an *integration leader*, which could be also perceived as that of a *cultural mediator*. Central to this new approach is the development of the project's intellectual outputs:

- I01) Integration Leaders Curriculum
- I02) Digital Toolbox of Integration Resources
- I03) In-service Training Programme
- I04) E-learning Portal and Digital Toolbox
- I05) Policy paper

The **Policy Paper** highlights the following;

- The formidable advantages offered by non-formal and informal learning for boosting networking between foreigners and natives women, nourishing cascade impacts.
- To assure impact, to guarantee ownership and commitment, and to ensure sustainable and long-term integration.
- To allow community building and mainstreaming, promoting sustainability and capitalising innovations.

What ENGAGE will achieve...

1. The development of an Integration Leaders training programme for migrant women
2. The production of a digital toolbox of integration training resources
3. The design and implementation of in-service training for adult education and migrant support workers
4. A bespoke e-learning portal
5. A policy paper that highlights the learning of the ENGAGE project consortium

ENGAGE Focus on ...

The **E-learning Portal and Digital Toolbox** comprise educational resources in the 6 EU languages of the partnership; French; English; German; Italian, Croatian and Greek.

The **6 Modules Curriculum** is composed by two main sections; the Face2Face and the Self-directed learning.
